In 2015 all the United Nations Member States approved the 17 goals as part of the 2030 Agenda for Sustainable Development.

This document represents an international commitment to face the social, economic and environmental challenges of globalization, placing the focus on people, the planet, peace and prosperity, under the slogan “LEAVE NO ONE BEHIND”.

An opportunity for countries and societies to undertake a new path with which to improve the lives of all people and bequeath a healthy planet to the future generations without losing its diversity of species, landscapes and cultures.

And success depends on you as well!

Get to know the SDGs and put your skills to the test to overcome the following challenges. You just have to enter the exhibition with illustrations of the 17 SDGs produced by different artists and look carefully... Will you take the challenge?

To find out more about the SDGs... ...watch the videos!
CHOOSING AN ILLUSTRATION

You came to the Sustainable Development Goals exhibition and as soon as you entered there was an illustration that has especially caught your attention. Which one is it? What do you think the artist wants to show? What is your interpretation?

Title of the work: __________  SDG: __________

Author: __________

What do you think the artist wants to show? __________

What is your interpretation? __________
A group of journalists is visiting the exhibition to prepare a report about it, but they had never heard of the SDGs before. They are approaching you to ask you. How would you explain what they are and their importance?

It seems that one of the reporters is not convinced. He does not think that the world has so many problems as to need the SDGs. To convince him, find some local news related to the SDGs. Prepare a collage with the headlines and the most relevant information about the news you have found. You can use the template below if your wish.
Well, the journalists are surprised at how much you know and have asked you for a favour: propose a headline for the exhibition for their report.

Write a headline for the exhibition below.

THE EXHIBITION

In 2018, UNESCO Etxea organized a drawing competition to present the 17 SDGs with images. They received 197 illustrations from 170 artists and 13 different countries. 17 illustrations were selected out of all of them and included in the exhibition that has just opened its doors.
The report was a success thanks to your contribution and, to thank you, they have given you the opportunity to prepare a podcast and present it in tomorrow’s radio programme. Great! Find a current piece of news that deals with any of the SDGs in your city or municipality and prepare your podcast.

**Programmes you can use**

- Audacity
- Podbean
- EasyPodcast
- SoundCloud
- TalkShoe
- Spreaker
- Ivoox
- ...
Congratulations! They were so amazed by your podcast that they want you to do some final work in order for you to be awarded a scholarship! This time you must prepare a decalogue with 10 commitments that citizens can adopt to help fulfil the SDGs. The decalogue will be published in the press and social media; therefore it should be very visual and attractive. To this end, they suggest using a programme such as Canva or Genially. Let’s get on with it!
Below are some post-its for you not to forget any ideas...
